

FISCAL NOTE

HB 435 - SB 292

February 19, 2003

SUMMARY OF BILL: Adds any county having a population of 55,700 to 56,000 according to the 1990 or any subsequent federal census (Greene) to the list of those counties authorized to remedy dangerous conditions such as overgrown vegetation and accumulated debris on any parcel of property upon which an owner-occupied residence is located.

ESTIMATED FISCAL IMPACT:

Increase Local Govt. Expenditures - Not Significant / Permissive

Estimate assumes an increase in local government expenditures to the extent the affected county chooses to remedy dangerous conditions on property with an owner-occupied residence, for materials and labor and administrative costs associated with serving notice and handling appeals. The cost of remedying the conditions can be charged to the property owner and a lien can be placed on the property. Any increase in expenditures is therefore estimated to be not significant.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
